

Wants and Needs Activity

Wants are things that are not essential for daily life but are nice to have.

Needs are things that are necessary for every human to survive. Examples of needs: Water, food, shelter, and clothing.

Look at the items in the boxes below. Color things we need to live **RED**; color things we may like and want but don't need **BLUE**. It might be hard to choose which is which! Talk it over with a partner to see if their choices are the same.
