

Ainsley House Information Sheet

Music/ Dancing

- Amplified music is permitted up to 10:00 pm. Noise level (a limit of 75 decibels is permitted) must be monitored with consideration for Ainsley House neighbors. If music is too loud, as shown on the decibel monitor, you will be asked to tell the musicians/disc jockey to reduce the sound. **If the request is not followed, the wedding attendant will notify police and the event will be closed down.** We also cannot tolerate music that encourages guests to shout expletives.
- The Ainsley House does not have a sound system available for use.
- We do recommend a microphone for ceremony, speeches, toasts, and other speaking needs.
- There is a cement dance floor under the arbor. Please see Site Dimensions document for specific space needs.
